

# JAMEL EID YASSIN

## LEAD ANGULAR ENGINEER

### ABOUT

Experienced Senior Angular Engineer with a proven track record of designing and developing robust web applications. Proficient in creating responsive and user-friendly interfaces using Angular, TypeScript, HTML, and CSS. Skilled in implementing RESTful APIs, integrating third-party libraries, and optimizing application performance. Strong problem-solving abilities and a deep understanding of software development principles. Collaborative team player with excellent communication skills and a passion for delivering high-quality code. Continuously staying updated with the latest trends and best practices in Angular development to ensure efficient and scalable solutions

## EXPERIENCES

2021 — Present

### Lead Engineer

#### Digital Brand Work Technology

- Visionary software engineer with a track record of delivering cutting-edge, futuristic production code for esteemed clients, including industry leaders like The Dungeon Dubai, Practical, IIFYM, Thahabamaal, Kroki, Mawedy, Nadena, NGCards, NGMenu, Rive, and more.
- Proven expertise in consistently producing high-quality and robust solutions.
- Demonstrated leadership skills within the engineering department, fostering collaboration and facilitating knowledge sharing.
- Strong mentorship abilities, empowering team members to embrace the future of technology and innovation.
- Committed to staying updated with the latest industry trends and advancements.
- Excellent communication skills and ability to work effectively in a collaborative environment.
- Passionate about driving forward-thinking approaches to software engineering.
- Results-oriented mindset with a focus on delivering innovative solutions.
- Track record of assuming leadership roles and driving successful projects.
- Recognized for delivering exceptional client satisfaction and exceeding project goals.

2021 — 2021

### Management Information System Staff

#### Iloilo State University of Fisheries Science and Technology

- Responsible for gathering and managing campus data for system inputs in a university setting.
- Development and maintenance of the university's automated system, ensuring its efficiency and reliability.
- Adherence to clean and maintainable coding practices, resulting in well-organized file structures for seamless collaboration and simplified maintenance.
- Upholding the highest standards of code quality, contributing to the scalability, adaptability, and long-term sustainability of the automation system.
- Positioning the university's automation system at the forefront of technological advancement in higher education.
- Strong focus on data integrity and accuracy to support informed decision-making.
- Collaborative approach, working closely with IT personnel and future developers for streamlined development and maintenance processes.
- Continuously staying updated with the latest technological advancements and best practices to drive innovation in the higher education automation system.

2020 — 2021

### Project Lead Engineer

#### Iloilo Provincial Population Office

- Responsible for gathering and managing campus data for system inputs in a university setting.
- Development and maintenance of the university's automated system, ensuring its efficiency and reliability.

- o Adherence to clean and maintainable coding practices, resulting in well-organized file structures for seamless collaboration and simplified maintenance.
- o Upholding the highest standards of code quality, contributing to the scalability, adaptability, and long-term sustainability of the automation system.
- o Positioning the university's automation system at the forefront of technological advancement in higher education.
- o Strong focus on data integrity and accuracy to support informed decision-making.
- o Collaborative approach, working closely with IT personnel and future developers for streamlined development and maintenance processes.
- o Continuously staying updated with the latest technological advancements and best practices to drive innovation in the higher education automation system.
- o Dedicated to delivering efficient and reliable solutions that meet the unique needs and challenges of the university environment.

2019 — 2020

### **Project Sole Engineer**

**USAID, Commission on Population, and Department of Health**

- o Experienced in creating system designs and architectures for harmonizing and integrating data between two government agencies sponsored by USAID.
- o Proficient in designing databases and user interfaces to ensure efficient data integration and user-friendly experiences.
- o Developed robust, maintainable, and reusable code for web systems, contributing to the overall reliability and scalability of the applications.
- o Played a pivotal role in enabling efficient data integration and seamless collaboration between the personnel of the two government agencies.
- o Demonstrated expertise in creating user-friendly interfaces that enhance the usability and productivity of agency personnel.
- o Strong focus on delivering high-quality solutions that align with industry best practices and standards.
- o Proven track record of successfully implementing and optimizing system performance.
- o Collaborative team player with excellent communication skills, facilitating effective collaboration with cross-functional teams and stakeholders.

2017 — Present

### **Freelance Software Engineer**

**Iloilo, Philippines**

- o Experienced in developing mobile, desktop, and web applications, leveraging expertise in various programming languages and frameworks.
- o Proficient in integrating web or mobile applications with hardware components, particularly in the realm of IoT (Internet of Things).
- o Successfully created capstone projects for bachelor's and master's degree and PhD programs, demonstrating the ability to deliver comprehensive and innovative solutions.
- o Skilled in developing machine learning applications, utilizing data analysis and modeling techniques to build intelligent and predictive systems.

- o Strong understanding of software development lifecycle, including requirements gathering, design, implementation, testing, and deployment.
- o Proven ability to collaborate effectively with cross-functional teams, including designers, developers, and stakeholders, to deliver high-quality applications.
- o Up to date with the latest technologies, frameworks, and best practices in mobile, desktop, web, IoT, and machine learning development.
- o Committed to delivering user-centric applications with intuitive interfaces and seamless user experiences.
- o Detail-oriented and quality-focused, ensuring clean, maintainable, and scalable codebases.
- o Passionate about exploring emerging technologies and driving innovation in application development.

## CORE SKILLS

Angular

Ionic

React Native

Firebase

Tailwind

SCSS

TypeScript

JavaScript

Decorators

Payment Gateway

Figma/Adobe XD

System Analysis

System Architecture

Machine Learning

ORM & ODM

## EDUCATION

2019 — Present

**Master's Degree in Information Technology**

Iloilo State University of Fisheries Science and Technology

ongoing

2019 — Present

**Bachelor of Science in Information Technology**

Iloilo State University of Fisheries Science and Technology

completed

## AWARDS & RECOGNITION

- o Academic Distinction (2020)
- o Excellence in Information Technology (2020)
- o Systemwide Programming Skills Competition 2nd place (2019)
- o Civil Service Commission Eligibility (2018)
- o Leadership Awardee (2018)
- o Academic Awardee (2018)
- o National Students Publications Contributor (2018)
- o Editor in Chief of Information Technology Publication (2018)
- o Regional Philippine Society of Information Technology Vice President (2018)
- o Supreme Student Council President (2018)
- o Philippine Society of Information Technology President (2017)

## HOBBIES & INTERESTS

CODING

GAMING

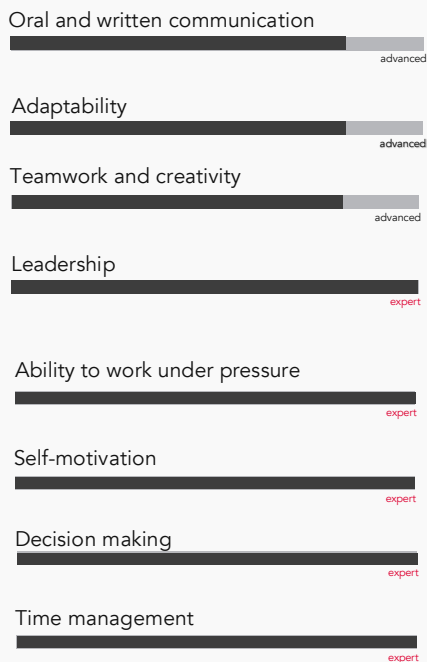

STUDYING

CHATTING

## SOFT SKILLS

## TRAININGS & SEMINARS

- Regional Industry, Energy and Emerging Technology Research Conference (2019)
- Research Training (2019)
- Leadership Training (2018)
- Regional Startup Ideas Training (2018)
- National Leadership Training (2018)
- National Video Making Training (2018)

## FREELANCES & PRO BONOS

- BPLO Leganes (2023)
- Chicken Feeder (2023)
- ISUFST Grade Predictor using Psychometric Performance (2023)
- ISAT-U Faculties & staffs Management System (2023)
- ISAT-U Yearbook Generation System (2023)
- Kwizzie (2023)
- ISUFST Lagaw & Learn (2023)
- Rural Health Unit of Santa Barbara (2023)
- Rich English (2023)
- San Joaquin Certificates Management System (2023)
- Mango Sweetness Detection (2023)
- Weed Detection and Recognition (2023)
- Y-Express (2023)
- MoodSync (2023)
- TrustAdvisor (2023)
- CPU Grade Predictor (2022)
- ISUFST Human Resource Management on Cloud (2020)
- College Supreme Student Council election management and voting web and mobile application (2020)
- Attendance System using Facial Recognition (2020)
- Koi monitoring (IoT) (2020)
- Trash Vending Machine (2020)
- Gardenscapes Assistance (2020)
- Air Quality Sensor with Mobile Application (2020)
- Automatic Trash Segregator with Mobile Application (2020)
- Turn Trash into Treasure (2020)
- School/University Finder (2019)
- Credit Cooperative Automated System (2019)
- Fish Marketplace (2018)
- Online Job Posting (2017)
